Sage CRM

Empowers sales teams to sell effectively

Sage CRM directs your sales efforts towards the most profitable, most winnable deals, and helps you make the most of cross-selling and up-selling opportunities. With instant access to pipelines, calendars, sales reports, contacts, and much more, your sales people are freed up to focus all their efforts on selling.

With Sage CRM, the sales team can manage and action all their activities from the interactive dashboard. This intuitive and interactive workspace enables the sales team to monitor their opportunities and pipeline, manage their calendar and tasks, and identify powerful networking opportunities from LinkedIn®, all from this customizable workspace.

Easy-to-use analytical tools help your sales team to identify latent sales opportunities which exist within your customer database, and then create cross-sell and up-sell propositions accordingly. Automated workflow and pipeline management eliminate unnecessary paperwork and ensure that sales teams are optimizing their sales processes and adhering to company-specific sales stages. This means that opportunities will be progressed as quickly and efficiently as possible.

“In the sales department, Sage CRM is the tool that we use all day long. It is vital in fact, because we log all our customer contact in Sage CRM and all our opportunities are tracked in Sage CRM. We would actually lose sight of our opportunities if we didn't have a system like Sage CRM.”

Sage CRM

Ensure customer satisfaction & loyalty

Keeping customers loyal and providing them with a satisfying and consistent customer experience can be hard to perfect. Sage CRM enables your company to roll out web-based customer self-service quickly and cost effectively. From here, users can service their own information needs, track data and update the system without the requirement for customer service assistance and at the time and place of their choice.

Additionally, you can maximize the synchronization between your service agents and your customers, ensuring that cases are progressed in a timely manner and in accordance with service level agreements (SLA). All cases can be managed directly from the interactive dashboard removing the need to switch between screens, maximizing the productivity of agents. Knowledge management capabilities make it easier to capture remedies related to specific issues which may recur over time, making sure that agents are not duplicating effort.

Benefits of Sage CRM in customer service

- Manage your customer accounts with insight and collaboration
- Respond to customer cases quickly, reducing response times to customer service requests
- Enable agents to quickly and accurately find the right answer the first time
- Enables customer satisfaction measurement and benchmarking
- Increases productivity of customer support representatives
- Provides self-service facility to customers around common issues
- Enables customer issues to be tracked and responded to, regardless of who answers the phone or receives the email
